# What's Inside

OPEN IT, PRINT IT, RUN IT

Eight complete programs — two days for ages 6–9 and two days for ages 3–5, in each guide, every activity written out in full. Each one runs about 15 minutes.

Thirteen printable sets bound in — 57 ready-to-print pages in program order, including Sukkos Bingo, the Headbandz cards, the parshiyos tiles and twenty-seven pages of Sukkos stories.

A master prep checklist and a shopping list with direct links, matched item by item to the activity that needs them.

A TASTE · ONE FROM EACH GUIDE

## Two Games, Exactly as They Appear

1

### Sukkos Bingo

PREP AHEAD

PRINTABLE

Six different boards are included so that no two children have the same one, plus a sheet of calling cards to cut up and draw from. Hand out the boards and a small pile of markers each, call an item, and the children cover it if they have it. First to a full line calls Bingo.

### Hakafos Activity

On Simchas Torah we go around and around in circles dancing with the Torah. Give out the Torah and the flags, put on a Simchas Torah niggun, and let them dance a hakafa properly — in a circle, all the way round. Then call out a new way to go around for each hakafa. There are seven hakafos, so here are seven:

- Hop the whole way round on one foot, then switch feet halfway.
- Backwards — the whole circle walks the other way without turning around.
- Tiptoes, as tall as you can, holding the flags up high.
- ... and four more, including the last one.

# And Seventy-Nine More

PLUS EVERYTHING AROUND THEM

Hot Esrog, Sukkah Mafia, Headbandz, Kosher Quest, the Arba Minim Riddles, Edible Sukkah Making, the Jellybean Learning Game, Get the Torah First, the Parshiyos Scavenger Hunt, Freeze and Justify, Candy Rain — and sixty-eight others, each written out the same way.

## Thirteen printable sets, bound in

Fifty-seven ready-to-print pages in program order at the back of the two guides — the six Bingo boards and calling cards, the Headbandz cards, the Guess the Picture sheets, the Arba Minim chart, the matching game, the puzzles, the umbrellas, the team numbers, the smiley faces, the parshiyos tiles, and twenty-seven pages of Sukkos stories. Nothing to search for and nothing to design.

## A master prep checklist for each guide

Everything to print, cut and buy, in one place, sorted into what to prepare, food, games and equipment, and books. Work down it before Yom Tov, put each activity into its own labelled bag, and the day itself needs nothing from you.

## A shopping list where every name is a link

Every item tapped straight through to Amazon, grouped by category and matched to the activity that needs it — the play tent, the headbands, the ring toss set, the treasure gems, the cardstock. Most of it is optional. The food section deliberately has no links: buy that at your local kosher grocery.
